

City of Monmouth, Illinois

We the under signed do hear by Request that a Stop Sign be placed at the corner of East 5th Avenue and South 8th Street on the East 5th Avenue side. There have been very many close calls at that intersection because the cars going East and West do not even slow down for the intersection. There are several Younger Children that play in that area. Is it going to take a Child or someone getting killed before the City of Monmouth takes action?
