

Monmouth Fire Department December Monthly Report

***January 22nd, 2019
City Council Meeting***

Emergency Responses:

The Monmouth Fire Department utilizes fire reporting software approved by the United States Fire Administration and the Office of the Illinois State Fire Marshal. This software records fire department responses in over 90 categories to track fire department emergency response statistics. This information is used by the department to support decision-making for fire response planning. Tracking response data with approved software is also required for fire departments receiving Federal and State grant dollars.

The chart on the following page includes a brief summary for each of the nine main categories of incident types and the number of calls that were responded to in each category.

Responses	Monthly	YTD
<u>Fires</u>	04	43
Includes structure fires, fire in mobile property used as a fixed structure (mobile homes and campers), vehicle fires, vegetation fires, rubbish fires, and field fires. There may also be other types of fires that do not necessarily meet the definition of one of the subcategories in this category.		
<u>Overpressure, Rupture, Explosion, Overheat (without ensuing fire)</u>	00	04
Includes overpressure rupture of a steam pipe or pipeline, overpressure or rupture from air or gas pipe or pipeline, overpressure rupture from chemical reaction, explosion without resulting in fire, and overheat or scorching with no ignition.		
<u>Rescue and Emergency Medical Services</u>	80	897
Includes medical assists (majority of MFD calls in this category), vehicle accidents with injuries, vehicle/pedestrian accidents, lock-in (gaining access to a vehicle or other area where a patient is locked inside), search for a lost person, extrication (victims trapped in vehicle, elevator, trench, confined space, machinery), water and ice rescue, and electrocutions.		
<u>Hazardous Conditions (no fire)</u>	10	112
Includes combustible/flammable spills and leaks, chemical releases or toxic conditions, carbon monoxide incidents, power line down, electrical equipment problems, vehicle accidents with no injuries, incidents involving explosives and attempted arson.		
<u>Service Calls</u>	05	100
Includes people in distress (locked out of vehicle), water in basements or leaky hydrant, smoke or odor removal, animal rescue, provide police with assistance, smoke detector checks, and unauthorized burning.		
<u>Good Intent Calls</u>	01	49
Incidents where the fire department was dispatched and then cancelled while en-route to the call. Also includes calls where no emergency was found upon arrival. Incidents where steam was mistaken for smoke or smoke from a barbecue or other controlled fire was mistaken for an uncontrolled fire. Includes emergency medical calls when the patient had been transported prior to the arrival of emergency responders.		
<u>False Alarms and False Calls</u>	03	83
Includes false alarms that were malicious or mischievous in nature, bomb scares, alarm activation due to the system malfunctioning, and the accidental activation of the alarm system (example -burnt food).		
<u>Severe Weather and Natural Disaster</u>	00	00
Includes responses to severe weather and natural disasters to stand by, investigate, or to assess the damage to determine if any additional assistance is needed.		
<u>Other Type Incidents</u>	00	00
Includes citizen complaints concerning code or ordinance violations and any other incidents that may not fit any of the above categories.		
Total	103	1288

Staff Training:

During the month of December, the fire department completed EMS training pertaining to poisons, bites, and insect stings. The staff reviewed information about the topic and conducted a case review.

Non-Emergency Activities:

The firefighters participated in the "Freezing for Food" campaign at Save-A-Lot on all three days of the event.

Apparatus and Equipment Related Items:

Several minor issues were addressed with the apparatus. Tower 22 remains out of service at Alexis Fire Equipment where the ladder repairs are being completed.

Other:

A staff meeting was held with all of the MFD officers to discuss departmental issues and events. Chief Rexroat attended a Warren County Emergency Partners meeting that was held at OSF Holy Family Medical Center.

A water line inside one of the walls of the kitchen at Station II was found to be leaking and was repaired by Advanced Plumbing. It was difficult to find the exact location of the leak which ended up being inside one of the cinder block walls behind the kitchen cabinets. Several kitchen cabinets had to be taken down to make inspection holes in the wall in order to find the leaking pipe.

Respectfully submitted,
Casey Rexroat, Fire Chief
